5. Processing Of Payment of The Delivered Supplies and Services – Shopping 52.1 B / Negotiated Procurement – Small Value Procurement

Processing of payment has to work in accordance with the regulatory requirement of the organization. This requires that the organization involved at every step of the process take full responsibility for policies and procedures regarding purchasing, payment, and vendor relations. Purchases also need to be made in the most efficient and cost-effective manner.

Processors for the payment can coordinate different offices to make the process of payment complete and each has different operating characteristics, rules and settlement mechanisms. Processing of payment varies depending on parties involved in the transactions.

2. Availment of Water Bacteriological Analysis Services

In line with the Philippines Sustainable Development Goals (SDGs) target to reach access to universal drinking water, sanitation, and hygiene by 2030, the national government specifically the Department of Health is implementing efforts to accelerate progress toward these goals. Among the incentives are the implementations of the water supply projects in the waterless areas and the advocacy of the national sustainable sanitation program.

One of the interventions to achieve this goal is to submit water sources for a bacteriological examination. With these, the laboratory is expecting to increase the number of submissions facilitated by Sanitation Inspectors of different LGUs as well as from neighboring provinces.
